

## **W/ALT: use a narrative structure effectively**

We are going to use what we have learned about narratives (and all the other writing building blocks such as sentence types, different vocabulary and so on) to write our own narrative. Make sure you have your story mapping plan with you as you write.

Remember to structure it like your story mapping sheet

- Beginning
- Build up
- Problem
- Resolution (how the problem is solved)
- Ending

Get creative when describing your setting and characters - really bring it to life!

### **Success Criteria:**

I know my narrative is successful when I have...

- Used the correct structure
- Used descriptive language”{
- Used a variety of punctuation
